DETAILED ACTION

Request For continued Examination (RCE)

1. The request filed on July 23, 2004 for a Request for Continued Examination (RCE) under 37 CFR 1.114 based on parent Application No. 09/664329 is acceptable and a RCE has been established. An action on the RCE follows.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-12 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. regarding claim 1, limitation "providing connection to at least one of said plurality of telephone signals" is unable since "telephone signals" is not a physical element, the connection could not be performed. Further, it is not clear what the connection for and/or what is connected to "telephone signals". The specification also fails to disclose the claimed limitations. Claims 2-12 are rejected because they depend from the rejected claim 1.
